About the College :

The Govt. CTE Kokrajhar, formerly known as PGTC Kokrajhar, was established in 1971 with a view to facilitating secondary school teachers to refresh and upgrade themselves professionally by undergoing the B.Ed. Training. Since its very inception, the college stood rock solid in realising its goal and mission, and has already completed glorious 50 years.

2

The college also has started a two year M.Ed. Course in the year 2017 under the affiliation of Bodoland University, duly recognised by NCTE, ERC Bhubaneswar (Odisha).

The college is situated at the heart of Kokrajhar town, barely one kilometre away from Kokrajhar railway station. Set in a scenic environment, surrounded by trees, the ambience of the college offers spiritual peace, perfectly ideal for an august gathering.

Kokrajhar town is well connected both by railway and road from the city of Guwahati, and most of the long distance trains stop at Kokrajhar railway station. It takes 5 hours by road and 4 hours by train to reach Kokrajhar from Guwahati.

Teacher Education in India assumes tremendous significance in view of indispensibility of trained teachers. Education today is undergoing tremendous change in view of addition of new diamensions and complexity of modern world. Education and training hold the key to success in every field. unlike earlier times, when teachers consciously selected professions by choice, and they were highly motivated, today in the face of competition in job market, failures in other professions have inundated the teaching Sector and therein comes the importance in teacher education. Moreover unlike other professions, Teaching profession is a highly challenging profession given that while it is easier to become a teacher, it is much more difficult to sustain oneself in the profession catering to professional as well as ethical requirements of the profession.

Keeping the above in mind, Govt. College of Teacher Education, Kokrajhar has decided to organise a one day National Seminar on "Few Reflections on Teacher Education" on 4th Nov./2022, to propel a wide ranging research papers and brainstorming discussion on the various sub topics, so as to arrive at a precise roadmap on Teacher Education.
